Take Case

- Will assign you to the patient's chart as a "Participant"

View Case

- Will only allow a view mode, editing is restricted.

PreOp Only

- You will not be assigned to the chart
- You will have full access to the PreOp; to Document and Sign

Regional Only

- You will not be assigned to the chart
- You will have full access to the Regional Block section to Document and Sign

1. The Add Patient Screen has been designed for emergency cases or add-on cases that did not come through an interface of the hospital's EMR system.

Note: DOB field is required to finalize a case but it is not required to save a patient.

CHARTING

PREOP:

- 1. User will "Take Case" to begin charting on their patient's Anesthesia record.
 - a. Once case has been Taken; user will see Patient Info screen with Pre-Filled Information pulled from scheduling interface.
 - b. User will have options to select from the left side-bar

+	67 Yrs 10/24/1950 190	kg	P Colonoscopy, Rigid Or Flexible, Transabdominal A Ibuprofen

POSTOP	Procedure										

- 2. By Selecting "Providers"; user will have options to add surgeons and any additional providers to the case
- 3. By Selecting "PREOP"; User will have a summary view of PreOp and be able to edit information as needed
- 4. User can select and edit a specific section by tapping the icon on the top bar, or by tapping the summary box (as indicated by the arrow)

- To start Auto-Vitals:

- Tap, the AutoVitals button
- Scan the barcode on your Anesthesia Machine OR –
- Select from the List of Machines
- Turn on (green) or off (white) any additional Gases, Monitors, Vitals, and Vent Settings that you wish to document

- Chart Vitals Manually:
 - Available Options are:
 - To manually select the BP or Pulse icons and tap on the chart grid at the place you would like to mark vitals taken.
 - Select "Quick Chart"
 - Select the Pulse/BP/MAP that you need to chart
 - Drag your finger across the screen until you have completed

- Select "Auto-Sequence"
 - Tap and Hold to set your default Sequence
 - Tap on the chart grid where you would like to chart your vitals. (they will chart in the order of the sequence set)

- To Erase multiple vitals taken:
 - Select "Erase" Button on left side of screen
 - Hold your finger down on the screen and drag to erase

To add Fluids: -

- Select the + Symbol on the grey fluid header
- Choose your fluid
 Select Save
