

Selecting Performed Procedure as Primary

- 1. If the procedure in the Planned Procedure section was NOT preformed
- 2. Do not select the Performed check box
- 3. Add the actual preformed procedure in the Performed Procedures section
- 4. By clicking the **Add** button
- 5. Fill out the fields for the actual performed procedure
- 6. Then click **OK**
- 7. Select the procedure from the Performed Procedure section
- 8. And click the **Primary** button to mark it as the primary
