

**Grant Writing Mentorship Financial Support Request**  
Office of the SVP for Research  
SUNY Downstate Health Sciences University

Mentoring is key to advancement and progression of faculty. Investigators can request financial support for grant-writing mentorship from a faculty member from Downstate or an external institution. Requests should be submitted to the SVPR's office using the **Mentorship Financial Support Request Application** form. Both the mentor and PI must sign the form to indicate their willingness and commitment to work together. The SVPR's office will provide compensation of \$500 to Downstate mentors and \$1000 to mentors from other institutions.

Please submit to the SVPR's Office the first draft and the final version of the application. These will remain confidential, viewed only by SVPR's office staff to help evaluate the program's ability to improve applications.
