Handheld Librarian Online Conference sponsored by Downstate’s Faculty Development Initiative

When: Thursday, July 30, 2009 from 9am-5pm
Location: Lecture Hall 2 in Basic Science Building

The Handheld Librarian 2009 - An online conference about Mobile Services

More people than ever are using mobile devices for a wide variety of purposes including communication, internet access, text messaging, and entertainment. It is important that faculty provide services on these devices as use increases.

The first ever Handheld Librarian Online on July 30, 2009 is the place to learn about these and other topics related to using wireless and handheld devices. The program -- sponsored by Alliance Library System, LearningTimes and Infoquest -- will include a variety of ways to collaborate, network and learn from a great group of experts in the field. In addition to live interactive webcasts, we will have a collection of available resources, discussions boards, and access to the recording of all live events for one year after the conference.

You do not have to register for this event. Seats are first come, first serve. For more information, please contact facultydevelopment@downstate.edu
Or visit http://www.handheldlibrarian.org
