The Faculty Development Initiative and
The Advanced Learning Resource Center invites you to
An Introduction to
Simulation as a Tool for Health Care Education

Did you know SUNY Downstate Medical Center has a simulation lab located on the lower level of the Medical Research Library? If you did not, please come to our Introduction to Simulation as a Tool for Health Care Education.

The simulation center here at Downstate Medical Center serves as a hospital setting to provide training for the real-world experience in patient care.

At these sessions you can meet iStan and Noelle

iStan is one of our life sized “patients”. Besides having heart and breath sounds, he can speak and move his eyes.

Noelle is his wife. She is pregnant and about to deliver his baby.

If you are interested “meeting” our “patients”, please visit our Introduction to Simulation session on Wednesday July 27, 2011 in the Advanced Learning Resource Center located on the lower level of the Medical Research Library.

To meet iStan, come join Dr. Dimitrious Papanagnou, Director of the Advanced Learning Resource Center. He will be introducing iStan from 11:00am-11:30am and Noon-12:30pm.

To meet Noelle, come join Aleida Llanes-Oberstein, CNM, LM, MS, FACNM, Clinical Associate Professor of Midwifery. She will be introducing Noelle 1pm-1:30pm and 2pm-2:30pm.

RSVP to: facultydevelopment@downstate.edu or call Angela Melton at 718-270-7420. Each session is limited to 10 people.
