

Go Green Forever Stamps

Want to make a positive impact on the environment? The United States Postal Service now offers Go Green Forever stamps. They illustrate simple things each of us can do every day to help preserve our environment and save money.

For example, Recycling just one aluminum can reduces waste and saves enough energy to run a computer for three hours. Simple insulation like caulking or weather-stripping pays for itself with reduced utility bills within one year. Properly inflating your car tires improves gas mileage by as much as three percent. You're not just saving the environment; you're saving money as well.

Forever stamps are always equal in value to the current First-Class Mail one-ounce rate and are available at your local Post Office or online at usps.com.
