**Steps for removing ICD-9 codes from your favorites**

- Click on the “Preferences” button in the “Main” toolbar, then click Health Issues.
- Select all ICD-9 codes you wish to remove.
- Next, click the “Remove” link.

**FACTS:**

- The Coding Scheme column notifies you if an entry was submitted as an Old ICD-9 or a New ICD-10 code.
- You must enter all Outpatient codes as OP Primary Dx and OP Secondary Dx.

**STOP - Do not select ICD-9 codes from previous visits**

*For All SUNY DMC Providers*
