Font Color Change for Discontinued Medications

To easier differentiate active and discontinued (inactive) medications, items with a status of **Discontinued**, **No Longer Taking** or **Completed** will display in *italicized* text.

Medication Summary		-	Status	Start Date
By Prescription Only (12 items)				
aspirin 81 mg oral enteric coated tablet 1 tab(s)	🍋 🗞	8	Active	(
Caduet 2.5 mg-20 mg oral tablet 1 tab(s) orally	*) 🗞	8	Discontinued	30-Jan-2013
Caduet 2.5 mg-20 mg oral tablet 1 tab(s) orally	*) 🗞	8	Discontinued	30-Jan-2013
Caduet 2.5 mg-20 mg oral tablet 2 tab(s) orally	* 🗞	8	Active	30-Jan-2013

Free-Text Script Display

To better differentiate medications that were added as **free text** entries, these items will display with a **pink** color background. In addition, a **free text** icon will display to the left of the item name.

raloxifene 60 mg oral tablet 1 tab(s) orally once a	*	80	¥	Active
Free Tele (non-Multum) (1 item)				
take little white pill tab(s) orally once a day	*	80	8	Active

Preferred Pharmacy

The patient's preferred pharmacy displays in the **Header** area. The entry is also a functional hyperlink that provides the ability to launch the **Preferred Pharmacy** dialog window to add/update the patient's preferred pharmacy information used for electronic prescription transmission.

Medication Search Changes

Search Options

The following changes have been incorporated to better manage the medication search when adding new prescriptions:

Better filter search results

Medication History

The **Medication History** display in **Prescription Writer** has been enhanced to display more detailed modification history information.

To Access Medication History:

- 1. From the **Prescription Writer** window, right-click on the prescription to view.
- 2. From the menu, select Show History.

The **Medication History** window appears.
