New Entrance at 395 Lenox Road

Before

395 Lenox Road - Exterior Door Replacement Project

NOTES for Scheme 1E:

Pros:

- Low impact to sidewalks
- Provides most interior lobby space
- Most conventional ADA access

Cons:

- Less exterior area under canopy
- Smaller Capacity Revolver
- Swing door will be used more frequently leading to greater heat loss/infiltration

SUNY DOWNSTATE
 Health Sciences University

After

Budget Update

COVID-19 Impact

- On March 28th, 2020, the Governor of New York designated SUNY Downstate Health Sciences University's University Hospital at Downstate (UHD) as a "COVID-only" hospital

 the only "COVID-only" acute care hospital general hospital designated in all of New York State...and the only such in the entire nation

- This designation amounts to an "unfunded mandate" in the service of the patients of Central Brooklyn, who disproportionately bore the brunt of the worst early phase of the pandemic
- This designation required the hospital to divert all non-COVID inpatient cases to other facilities, cancel all elective and emergent surgeries, close all clinics, and divert all obstetric patients to other hospitals. This virtual "shutdown" has had severe financial impact
- The designation of "COVID-only" was not lifted until the President of Downstate, Dr. Wayne Riley, appealed directly to the State of New York in June of 2020
- The "COVID-only" designation has resulted in a prolonged negative impact on UHD that has spanned two additional COVID case spikes and almost two years

COVID-19 Impact

- The total quantifiable direct and indirect financial impact on UHD is **\$249M** of which only **\$89.5M** has been reimbursed by the Federal Government. This has left UHD with a **\$159M COVID-related deficit**
- Since the start of the Pandemic during FY 20 the Hospital has seen its Inpatient volumes erode **25%** from FY 19 to FY 21
- The Emergency Department has seen a dramatic decrease in volume of **57%** during the COVID-only period.
 - Daily census down **27%**
 - Patient admissions down **26%**
 - Surgery down **25%**
 - Clinic visits down **17%**
 - Emergency Room Visits down **36%** in the 18 months following the COVID-only period
 - Newborn deliveries down **39%**
- These numbers represent changes from FY2019 compared to FY2020 through FY2021 (June 30, 2021)

Federal Provider Relief Funds

Hospital received **\$89.5 Million** in Provider Relief Funds; those funds were utilized as follows:

1. Maintain workforce - although volumes were **25%** off from pre COVID levels no furloughs or work force reductions occurred.
2. COVID operations – the hospital has identified approximately **\$18 million** in COVID related expenses
 - \$9.1 million in Medical and Lab Supplies**
 - \$4.3 million in Agency and Clinical services**
 - \$3.2 million in Building/Property Services**
 - \$1.4 million in IT and Other supplies**
3. Maintain current operations - vendors impacted by COVID began placing credit holds on accounts and would not release products/services until past accounts were fully paid.

COVID-19 Impact

- During FY 22 the Hospital has seen a slow, sporadic, and uneven recovery of some of that lost volume.
- Due to shifts in payer mix, market share, and periods of COVID surges such as the Delta variant (and more recently Omicron), the Hospital continues to struggle with the aftermath of the 2020 COVID-only period and the ongoing lasting effects of COVID on clinical and financial operations
- Since the onset of the pandemic the Hospital has seen expenses grow approximately **9%** from FY 2019-2020
- Various operational costs were incurred to fight the pandemic and continue to be incurred. The COVID-19 pandemic has caused staffing shortages, which has significantly raised the cost to retain and hire staff
- Nursing agency costs have increased approximately **40%**
- Overall Hospital staffing has decreased **11%** from FY 19; however the cost per FTE has increased **12%**
- Terminal cleaning of patient rooms, COVID-related lab tests, access screening, and supply chain shortages have added additional costs

State Acquisition of 329 Clarkson Ave Parking Garage

Loss of 329-359 Clarkson Ave Garage

- Date we vacate garage: Spring 2023
- Loss of approximately 196 parking spots
- Developer has been selected by NYS Housing and Community Renewal
- HCR to pay off Foundation mortgage – apx. \$3.5M
- NYS to pay \$78M to SUNY → Funding for construction of the Downstate University Center

Parking Update

- 329 Clarkson Garage scheduled to close this calendar year
- Parkers to be reassigned using recent Parking Questionnaire results
- However, there will be insufficient parking to meet demand:

710 spots for 828 active monthly parkers after loss of 196 spaces

City and State Article About Downstate/UHD

SUNY Downstate is still in debt after serving as a 'COVID-only' hospital during the pandemic

President Wayne Riley said the state needs to recognize the institution's contributions to Brooklyn and beyond.
