# A T T E N T I O N

## For August 13 and 14 Only

SUNY Downstate Medical Center is upgrading the Hospital's Heating Ventilation and Air Conditioning System. In order to perform this important work, overhead crane operations will be required. For your safety, on the dates listed above we need to have this room unoccupied. Roof top operations will be taking place all day on the dates listed. Flagmen will be posted on this floor to ensure that the rooms involved remain unoccupied.

Kindly adjust your schedule accordingly so you will be able to perform your duties without the use of this space.

Your cooperation is greatly appreciated. Thank you.
