

# SUNY DOWNSTATE Medical Center

**Contracts Department**

**Issued: 3-19-2014**

## **Procurement Summary Request for Information (RFI) #Q14-14**

**Title:** Energy Analysis

**Description/Procurement Summary:**

This Request for Information (RFI) seeks to obtain information from interested energy services firms and energy consulting professionals. The University Hospital of Brooklyn (UHB) is seeking to establish the viability of an effort to identify opportunities for operational cost reductions and energy savings. Specifically, the feasibility of importing data from existing building management and control systems and analyzing this data to identify such opportunities is being considered.

The infrastructure for the UHB is both contained in the UHB proper, and provided from a central steam plant located in the Basic Sciences Building (BSB).

**Contact:**

The only individual at SUNY-DMC who may be contacted in connection with this procurement is: Brian McGraw, 718-270-1532, [brian.mcgraw@downstate.edu](mailto:brian.mcgraw@downstate.edu)

Contacting any other individual at SUNY-DMC, in any manner, regarding this procurement may constitute a violation of New York State law.

**RFI Date:** March 28, 2014.

**Time:** 11a.m.

**Location:** 430 Clarkson Ave (Lobby), Brooklyn, NY. Corner of Clarkson and New York.
