PROJECT (Detail the program and expenses from this YR)	ATTENDANCE	EXPENSES	PROJECT (Detail the program and expenses for next YR)	EXPENSES
Yearbook production	Books sent to all graduates, plus sponsors.	\$27,500	Yearbook production	\$27,500
			WE ARE ONLY REQUESTING \$5,000 as we do every year. Book pays for itself...we just request \$5,000 as a back up in case of emergency. Anything left over is returned at the end of the year.	

Once you insert the actual # of lectures for each year, the Excel formula will recalculate the total expenses of each year. Use caution - the green highlighted cells have Excel formula's that will auto-calculate. Don't erase or type over the formula.

Step 1: Insert the number of lectures for each year in cell# E31 and E67 yellow highlighted). This will autocalculate the lecture fee annual expense as well as the total annual expense.

Step 2: See the resulting net balance (1st yr in cell G42, 2nd yr in cell G78)

Step 3: Insert the resulting net balance from Step 1 as the MSC allocation (1st Yr in cell G15; 2nd yr in cell G55 -yellow highlighted)

The result will autocalculate and should produce a net balance for 1st yr and 2nd yr = 0 (a balanced budget)

Of course you can also modify other expense categories if needed, then follow the same steps
