*Important clarification concerning who must comply: Individuals who do not make independent decisions regarding the design, conduct, or reporting of the activity in question and only work on or are engaged in the activity do not meet the definition of an investigator. Transient staff and trainees, such as medical students, residents and fellows, who may recruit patients and/or collect and handle data under supervision, but are not key to the design, conduct or reporting of research are not considered Investigators for purposes of COI. In addition, staff or trainees who merely implement a protocol developed by an Investigator or enter data into an electronic data capturing system are also not considered Investigators for purposes of COI.*
