

Behavioral Health Plan

The comprehensive Behavioral Health Plan will be developed by the Department of Psychiatry and will include provisions for the acute event as well as support for needs of the staff and community in the recovery phase of the event.

With respect to MCI events patients with acute behavioral health needs will be cared for in suite I as outlined in the MCI plan. This area will be staffed by Behavioral Health Professional, Social Workers, Chaplaincy, and Human Resource representatives.

At the discretion of the incident command, a "Crisis Line" will be established during specific incidents. The number will be 270-2261 and may be utilized if the incident does not require suite I to be manned 24 hours a day.
