RURAL HEALTH FACT SHEET SERIES

Please note: The information in this publication applies only to the Medicare Fee-For-Service Program (also known as Original Medicare).

This publication provides the following information on calendar year (CY) 2014 Medicare telehealth services:

- ❖ Originating sites;
- ❖ Distant site practitioners;
- ❖ Telehealth services;
- ❖ Billing and payment for professional services furnished via telehealth;
- ❖ Billing and payment for the originating site facility fee;
- ❖ Resources; and
- ❖ Lists of helpful websites and Regional Office Rural Health Coordinators.

When “you” is used in this publication, we are referring to physicians or practitioners at the distant site.

Medicare pays for a limited number of Part B services furnished by a physician or practitioner to an eligible beneficiary via a telecommunications system. For eligible telehealth services, the use of a telecommunications system substitutes for an in-person encounter.

ORIGINATING SITES

An originating site is the location of an eligible Medicare beneficiary at the time the service being furnished via a telecommunications system occurs. Medicare beneficiaries are eligible for telehealth services only if they are presented from an originating site located in:

- ❖ A rural Health Professional Shortage Area, either located outside of a Metropolitan Statistical Area (MSA) or in a rural census tract, as determined by the Office of Rural Health Policy within the Health Resources and Services Administration (HRSA); or
- ❖ A county outside of a MSA.

Applicable FARS\DFARS Restrictions Apply to Government Use. Fee schedules, relative value units, conversion factors and/or related components are not assigned by the AMA, are not part of CPT, and the AMA is not recommending their use. The AMA does not directly or indirectly practice medicine or dispense medical services. The AMA assumes no liability for data contained or not contained herein.

You can access HRSA's website tool to determine a potential originating site's eligibility for Medicare telehealth payment at <http://www.cms.gov/Medicare/Medicare-General-Information/Telehealth> on the Centers for Medicare & Medicaid Services (CMS) website.

Entities that participate in a Federal telemedicine demonstration project approved by (or receiving funding from) the Secretary of the Department of Health and Human Services as of December 31, 2000, qualify as originating sites regardless of geographic location.

Each CY, the geographic eligibility of an originating site is established, based on the status of the area as of December 31st of the prior calendar year, and such eligibility continues for the full CY.

The originating sites authorized by law are:

- ❖ The offices of physicians or practitioners;
- ❖ Hospitals;
- ❖ Critical Access Hospitals (CAH);
- ❖ Rural Health Clinics;
- ❖ Federally Qualified Health Centers;
- ❖ Hospital-based or CAH-based Renal Dialysis Centers (including satellites);
- ❖ Skilled Nursing Facilities (SNF); and
- ❖ Community Mental Health Centers (CMHC).

Note: Independent Renal Dialysis Facilities are not eligible originating sites.

DISTANT SITE PRACTITIONERS

Practitioners at the distant site who may furnish and receive payment for covered telehealth services (subject to State law) are:

- ❖ Physicians;
- ❖ Nurse practitioners (NP);
- ❖ Physician assistants (PA);
- ❖ Nurse-midwives;
- ❖ Clinical nurse specialists (CNS);
- ❖ Clinical psychologists (CP) and clinical social workers (CSW). CPs and CSWs cannot bill for psychiatric diagnostic interview examinations with medical services or medical evaluation and management services under Medicare. These practitioners may not bill or receive payment for Current Procedural Terminology (CPT) codes 90792, 90833, 90836, and 90838; and
- ❖ Registered dietitians or nutrition professionals.

TELEHEALTH SERVICES

As a condition of payment, an interactive audio and video telecommunications system must be used that permits real-time communication between you, at the distant site, and the beneficiary, at the originating site. Asynchronous “store and forward” technology is permitted only in Federal telemedicine demonstration programs conducted in Alaska or Hawaii.

The chart on page 3 provides the CY 2014 list of Medicare telehealth services.

BILLING AND PAYMENT FOR PROFESSIONAL SERVICES FURNISHED VIA TELEHEALTH

You should submit claims for telehealth services using the appropriate CPT or HCPCS code for the professional service along with the telehealth modifier GT, “via interactive audio and video telecommunications systems” (for example, 99201 GT). By coding and billing the GT modifier with a covered telehealth procedure code, you are certifying that the beneficiary was present at an eligible originating site when the telehealth service was furnished. By coding and billing the GT modifier with a covered ESRD-related service telehealth code, you are certifying that one visit per month was furnished “hands on” to examine the vascular access site.

For Federal telemedicine demonstration programs conducted in Alaska or Hawaii, you should submit claims using the appropriate CPT or HCPCS code for the professional service along with the telehealth modifier GQ if telehealth services were performed “via an asynchronous telecommunications system” (for example, 99201 GQ). By using the GQ modifier, you are certifying that the asynchronous medical file was collected and transmitted to you at the distant site

from a Federal telemedicine demonstration project conducted in Alaska or Hawaii.

You should bill the Medicare Administrative Contractor (MAC) for covered telehealth services. Medicare pays you the appropriate amount under the Medicare Physician Fee Schedule (PFS) for telehealth services. When you are located in a CAH and have reassigned your billing rights to a CAH that has elected the Optional Payment Method, the CAH bills the MAC for telehealth services and the payment amount is 80 percent of the Medicare PFS for telehealth services.

BILLING AND PAYMENT FOR THE ORIGINATING SITE FACILITY FEE

Originating sites are paid an originating site facility fee for telehealth services as described by HCPCS code Q3014. You should bill the MAC for the originating site facility fee, which is a separately billable Part B payment.

Note: When a CMHC serves as an originating site, the originating site facility fee does not count toward the number of services used to determine payment for partial hospitalization services.
