Personnel/Benefits

Sheldon Markowitz, M.D. (718)869-7672  
(718)868-7650

St. John's Episcopal Hospital, the only multidisciplinary teaching hospital on the South Shore, serves more than 100,000 residents of Queens and Nassau each year including a large geriatric population. The 306-bed, modern facility houses a cardiac nuclear scanner, Doppler echocardiograph, CT scanner, MRI, a DEXA Scanner, a Coronary Care Unit with computerized cardiac monitors, and, for patients who need eye surgery, an ophthalmologic microscope with state-of-the-art lasers. St. John's Episcopal Hospital has a pediatric immunology service, an ambulatory surgery Unit, digital subtraction angiography units, and a chemical dependency unit. The Emergency Center is an accredited Emergency Heart Care Station and 911 receiving hospital. The hospital is also a recently approved Stroke Center.
