

Annual Research Day 2017 Results				
Name	Title	Program or School	Sponsor	Sponsor's Department
Platform Presentation First Prize: May Kin Ho and Michael Dean Travel Fellowship - up to \$1,500				
Matthew Regier	The Role of Ribosome Biogenesis in Learning and Memory	School of Graduate Studies - NBS	Ivan Hernandez	Pathology
First Prize for Poster Presentation: \$1,500				
Clotilde Balucani	Fatal Intracranial Hemorrhage Following Iv Tpa In A Patient With Acute Ischemic Stroke Induced By A Cardiac Myxoma	Resident Neurology PGY2	Steven Levine	Neurology
Rafael Flores-Obando	The Role Of Mutations In Connexin47 (Cx47) In Myelinating Cells Of The Central Nervous System (CNS)	School of Graduate Studies - Molecular & Cellular Biology Student	Charles Abrams	Neurology & Rehabilitation, University of Illinois at Chicago
Kristen Lu	Characterization Of Novel Mechanisms Of Translation Initiation	School of Graduate Studies - Molecular & Cellular Biology Student	Christopher Hellen and Tatyana Pestova	Cell Biology
Second Prizes for Poster Presentation: \$750				
Sumeet Arora	Management Of Transient Neonatal Diabetes With An Insulin Pump	Resident Pediatric Endocrinology PGY4	Vivian Chin	Pediatric Endocrinology
Sandro Corti	Characterization Of Striatocapsular Hemorrhage In A Community Hospital Cohort Of African-Caribbean Patients	Resident Neurology PGY4	Susan Law	Neurology
Zerin Kashem	Assaults From Students And Threats And Harassment Faced By K-12 Educators: Association With Physical And Mental Health	School of Public Health Student	Paul Landsbergis	Environmental and Occupational Health Sciences
Yekaterina Merkulova	Role Of Intracellular Calcium And Atp In Modulation Of Trpc4 Channels.	School of Graduate Studies - Neural & Behavioral Science Student	Nicholas Penington	Physiology & Pharmacology
Third Prizes for Poster Presentations: \$500				
Florenal Joseph	Role of Yeast PARK9 (YPK9) in Membrane Integrity/Repair and Aging.	School of Graduate Studies - Molecular & Cellular Biology Student	William Chirico	Cell Biology
Avi Hameroff	Prostaglandin Levels In Pregnant Women With And Without Hyperemesis Gravidarum	Resident OB/GYN PGY4	Ozgul Muneyyirci-Delale	OB/GYN
James Messina	Relationship Between Spinal Curvature, Physical State, And Mental Status In An Underserved Population With Adolescent Idiopathic Scoliosis	College of Medicine Student	Carl Paulino	Orthopaedic Surgery & Rehabilitation Medicine
Sundaram Prize for Head and Neck Research: \$500				
Yongwoo Kim	Vertigo With Typical Peripheral Characteristics In Cerebellar Stroke	Resident Neurology PGY5	Adrian Marchidann	Neurology
