

Annual Research Day 2018 - April 11, 2018
Platform Presentations - Alumni Auditorium, Health Sciences Education Building

Time (approx.)	Name	Downstate Area	Abstract title	Downstate Role	Research Advisor/Sponsor	Advisor's Department
10:00am	Colbourn, Robert	Cell Biology	Dynamic Volume Changes of the Brain's Extracellular Space Underlying Seizures	School of Graduate Studies - Neural & Behavioral Science Student	Sabina Hrabetova	Department of Molecular and Cellular Biology
10:15am	Edokpolo, Leonard	Anesthesiology	Comparing 'Readiness for discharge' in Colonoscopy after Sedation with only Propofol vs Sedation with Propofol and Dexmedetomidine combined	Resident, Anesthesiology PGY5	Dennis Dimaculangan	Anesthesiology
10:30am	Evrard, Matthew	Physiology	The role of $\alpha 4\beta\delta$ GABAA receptors in triggering synaptic pruning in the medial prefrontal cortex of female mice during adolescence	School of Graduate Studies - Neural & Behavioral Science Student	Sheryl Smith	Physiology and Pharmacology
10:45am	Malakhov, Nikita	Radiation Oncology	Patterns of Care and Outcomes for Glioblastoma in Patients with Poor Performance Status	College of Medicine Student	David Schreiber	Radiation Oncology
11:00am	Marwa, Albara	Pediatric Endocrinology	Effectiveness of Downstart Healthy Lifestyle Program for Childhood Obesity	Resident, Pediatrics, PGY3	Vivian Chin	Pediatric Endocrinology
11:15am	Nath, Sridesh	Medicine	Protein Phospholipid Transfer Protein and Alpha-1 Antitrypsin Regulate Neutrophil Immune Responses	Resident, Internal Medicine PGY2	Patrick Geraghty	Medicine
11:30am	Sapozhnikov, Milana	Medicine	Characterization of Microvascular Disease In Patients With Sickle Cell Disease Using Nailfold Capillaroscopy	College of Medicine Student	Louis Saliccioli	Department of Medicine
11:45am	Seger, Edward	Department of Medicine	Prediction of disease progression in mycosis fungoides using the immune microenvironment	College of Medicine Student	Raj Wadgaonkar	Department of Medicine
12:00pm	Yusupov, Denis	Medicine--Kings County Hospital Primary Care Attending	FIT vs Colonoscopy: Using Shared Decision Making to Optimize Colorectal Cancer Screening in an Urban Underserved Population	Resident, Medicine PGY1	Andrew Chang	Medicine--Kings County Hospital Primary Care Attending
12:15pm	Zinoviev, Alexandra	Cell Biology	Release of ubiquitinated and non-ubiquitinated nascent chains from stalled ribosomal complexes	Department of Cell Biology, Postdoc	Tatyana Pestova	Cell Biology
Judges: Juan Marcos Alarcon, Andrea Bibbig, Greg Gick, Ivan Hernandez, Ira Kass
