

## Graduate School Calendar of Events

Date	Event	Speaker	Affiliation	Title	Time	Room
<b>OCTOBER 2002</b>						
10/2	Neural & Behavioral Science Seminar Series	<a href="#">Leslie Morrow</a>	Professor, Department of Psychiatry and Pharmacology, Associate Director of the Center for Alcohol Studies, Bowles Center for Alcohol Studies, University of North Carolina at Chapel Hill	Ethanol regulation of GABA <sub>A</sub> receptors: Mechanisms and physiological significance	4:00pm	<a href="#">EB LH1A</a>
10/16	Neural & Behavioral Science Seminar Series	<a href="#">Robert Muller</a>	Professor, Department of Physiology and Pharmacology, SUNY Brooklyn	Using very weak electrical stimulation to probe the excitability of single hippocampal neurons	12:00 noon	<a href="#">EB LH 1B</a>
<b>DECEMBER 2002</b>						
12/11	Neural & Behavioral Science Seminar Series	<a href="#">Cynthia Czajkowski</a>	Associate Professor, University of Wisconsin - Madison	Mapping Structural Rearrangements in GABA-A Receptor During Channel Gating and Modulation	12:00 noon	<a href="#">EB LH 1B</a>
<b>JANUARY 2003</b>						
1/8	Neural & Behavioral Science Seminar Series	Chiye Aoki	Associate Professor of Neural Science and Biology, Center for Neuroscience, New York University	Making of a synapse: Lessons learned from electron microscopy	12:00 noon	<a href="#">EB LH 1B</a>
1/22	Neural & Behavioral Science Seminar Series	Raymond Dingledine	Professor and Chair, Department of Pharmacology, Emory University School of Medicine, Atlanta	Glutamate receptor regulation in epileptogenesis	12:00 noon	<a href="#">LH 1B</a>
<b>FEBRUARY 2003</b>						
2/5	Neural & Behavioral Science Seminar Series	Carmelo Romano	Associate Professor of Ophthalmology, Washington University School of Medicine, Saint Louis, MO	GABA-A Receptors: Novel Functions and a novel structure	12:00 noon	<a href="#">EB LH 1B</a>
<b>APRIL 2003</b>						
4/9	Neural & Behavioral Science Seminar Series	<a href="#">Karel Svoboda</a>	Associate Professor, Department of Neuroscience, Cold Spring Harbor Laboratory and Assistant Professor, Howard Hughes Medical Institute	Ca <sup>2+</sup> signaling in dendritic spines	12:00 noon	<a href="#">EB LH 1B</a>
4/16	Neural & Behavioral Science Seminar Series	<a href="#">Astrid Nehlig</a>	Research Director, Faculty of Medicine, French National Institute for Health and Medical Research, INSERM U 405, Strasbourg, France	Contribution of imaging techniques to the study of the pathogenesis of temporal lobe epilepsy	12:00 noon	<a href="#">EB LH 1A</a>
4/30	Neural & Behavioral Science Seminar Series	<a href="#">Clifford G. Kentros</a>	Research Scientist, Columbia University College of Physicians and Surgeons, New York State Psychiatric Institute Center for Neurobiology and Behavior	Hippocampal Place Cells: A Bridge between Molecules and Memory	12:00 noon	<a href="#">EB LH 1B</a>
<b>JUNE 2003</b>						
	Neural & Behavioral Science Seminar Series				12:00 noon	<a href="#">EB LH 1B</a>

*For further information or comments:*

*Contact Ed Throckmorton, Registrar, School of Graduate Studies (718) 270-2739*

[ethrockmorton@downstate.edu](mailto:ethrockmorton@downstate.edu)

*Potential students interested in attending seminars:*

*please contact Ms. Denise Sheares at (718) 270-2738*
