

Health Informatics (MS/Online Advanced Certificate)

Full-Time and Part-Time options with online and in-person offerings of the MS Program

Spring, Summer and Fall admission available

Health informatics is a discipline of considerable breadth focused on the creation and productive use of knowledge in support of health professionals as well as patients. Health informaticians facilitate the effective use of health-information technologies (including EHRs) that are critical for delivering quality patient care. Recent developments have spurred on the need for educational training in informatics such as increased attention to patient safety, the rapidly developing field of AI, and the need for increased responsiveness to crises like the COVID-19 pandemic.

The Health Informatics curriculum covers a wide range of knowledge and skills essential for working in various healthcare settings. The program prepares graduates to assume various roles and responsibilities in health informatics include designing, implementing, and supporting clinical information systems, educating staff, analyzing data, evaluating and improving existing systems, and coordinating between clinical and IT teams to enhance healthcare operations and policies.

DOWNSTATE
HEALTH SCIENCES UNIVERSITY

Before you apply

- Review the website to learn more about our program.
- Sign up to attend an Information Session.
- Assess the best time to apply; early applications are encouraged.
- Review the curriculum and the tuition to determine costs.
- For additional information, please visit the website or contact the program at informatics.sohp@downstate.edu.

Steps to apply

1. **Download and Read the Application Instructions.**
2. **Check the Deadline on our website.**
3. **Prepare Your Documentation.**
You may be required to upload documents related to your application.
4. **Submit Your Application via:**
www.tinyurl.com/3xuftyk7
5. **Check Your Status.**
Upon submitting your online application, you are able to log back in to upload additional documents and monitor your application status.
