How practitioners/academics define and relate to the concept of culture?

The Coalition of Occupational Therapy Advocates for Diversity **(COTAD)** chapter at SUNY Downstate invites you to their second interdisciplinary panel discussion, where 5 healthcare experts from different backgrounds will discuss how practitioners and academics define, relate and debate the concept of culture (race, age, sexual orientation, cultural and racial identities, religious garments, socioeconomic status etc...), how it impacts clinical practices, and how it manifests into **principles of best practice-**
