Definitions:

New M1 medical entrants typically matriculate in the Fall term of each academic year and these form a cohort.

Graduated: The number of students that have since been conferred an MD degree from the program. Time to completion is typically 4 years from start date. The length of time to degree is not being captured here. This column is to track the number of students from an entering cohort that have completed the program successfully and were conferred the MD degree.

Progressing: Students that are still currently in "Active" status or who are taking a "Leave of absence" from the degree program.

Attrited: Students that have since "Withdrawn", "Withdrawn Administratively", "Dismissed" or "Transferred Out" of the degree program.

Definitions:

New students typically matriculate in the Summer or Fall term of each academic year and these form a cohort.

Graduated: The number of students that have since been conferred a degree in the program. Time to completion varies by program, by number of semesters or by credits, or by students' full-time or part-time status. Students graduate in May, June, August or December and not all programs end at the same time. Please note that the length of time to degree is not being captured here. This column is simply to track the number of students from an entering cohort that have completed the program successfully and received the degree/advanced certificate as of date of report.

Progressing: Students that are still currently in "Active" status or who are taking a "Leave of absence" from the degree program.

Attrited: Students that have since "Withdrawn", "Withdrawn Administratively", "Dismissed" or "Transferred Out" of the degree program

Notes:

New students are typically matriculate in the Summer or Fall term of each academic year and these form a cohort.

Graduated: The number of students that have since been conferred a degree in the degree. Time to completion varies by program, by number of semesters or by credits, or by students' full-time or part-time status. Students graduate in May, June, August or December and not all programs end at the same time. Please note that the length of time to degree is not being captured here. This column is simply to track the number of students from an entering cohort that have completed the program successfully and received the degree/advanced certificate.

Progressing: Students are still currently in "Active" status or who are taking a "Leave of Absence" from the degree program.

Attrited: Students that have since "Withdrawn", "Withdrawn Administratively", "Dismissed" or "Transferred Out" of the degree program
