

## Departmental Advice on Fourth Year Electives

(What to take outside the field I'm going into)

### Anesthesiology

- Cardiology
- Pulmonary Medicine
- EKG
- Pain management
- Surgical, neurosurgical, or pediatric critical care
- Emergency Medicine

### Dermatology

- Adult/pediatric Rheumatology
- Adult/pediatric Infectious disease
- Allergy/immunology
- Endocrinology
- Dermatopathology
- Plastic surgery

### Emergency Medicine

- Ophthalmology
- Otolaryngology
- Cardiology, CCU, EKG
- Critical care: surgical, pediatric
- Pediatric ambulatory care
- Pulmonary Medicine
- Sports Medicine
- Trauma surgery

### Internal Medicine

- Neurology
- Emergency Medicine
- Dermatology
- Urology
- Ophthalmology
- Otolaryngology
- Adolescent Medicine
- Sports medicine
- Physical Medicine and Rehabilitation
- Radiation Oncology

## **Neurology**

- Internal Medicine subspecialties: infectious diseases, AIDS and STDs, rheumatology, endocrinology, renal, cardiology
- Neurosurgery or neurosurgical critical care
- Neuroradiology, interventional neuroradiology
- Ophthalmology
- Dermatology
- Physical medicine and rehabilitation
- Emergency Medicine
- Pain management
- Radiation oncology

## **Neurosurgery**

- Neurology
- Neuroradiology
- Ophthalmology
- Otolaryngology
- Orthopedics (spine)
- Neuropathology
- Physical medicine and rehabilitation
- Radiation oncology
- Trauma surgery

## **Ophthalmology**

- Emergency Medicine
- Endocrinology
- Other Internal Medicine subspecialties: Allergy/immunology, Infectious diseases, Rheumatology
- Neurology
- Neuroradiology

## **Orthopedics**

- Emergency Medicine
- Internal medicine subspecialties: cardiology, EKG, or pulmonary medicine
- Rheumatology
- Surgical critical care
- Trauma surgery

## **Otolaryngology**

- Allergy/immunology
- Infectious diseases
- Oncology
- Pediatric Infectious diseases
- Neuroradiology

## **Pathology**

- Dermatology
- Internal medicine subspecialties: allergy/immunology, hematology and oncology, GI, ID, pulmonary, renal, rheumatology
- Ophthalmology
- Otolaryngology
- Gynecologic oncology
- Pediatric hematology and oncology, GI, ID,
- Pediatric neurology

## **Pediatrics**

- AIDS and STDs
- Pediatric dermatology, neurology, urology, ophthalmology
- Otolaryngology
- Perinatal Medicine (OB)
- Reproductive endocrinology (OB)
- Sports medicine (Ortho)
- Child/adolescent psychiatry
- Family planning
- Orthopedics (scoliosis)

## **Physical Medicine and Rehabilitation**

- Internal Medicine subspecialties: Cardiology, Endocrinology, Pulmonary Medicine, Nephrology
- EKG
- Neurology
- Orthopedics
- Pain management

## **Psychiatry**

- Adolescent Medicine
- Emergency Medicine, toxicology
- Internal Medicine specialties: endocrinology, palliative care
- Neurology
- Pain management
- Pediatric subspecialties
- Perinatal medicine (OB)

## **Radiation Oncology**

- Internal Medicine subspecialty: Gastroenterology, Pulmonary Medicine
- Otolaryngology
- Ophthalmology
- Dermatology
- Gynecology, urogynecology

- Oncology
- Neurology
- Musculoskeletal radiology
- Neuroradiology

### **Radiology**

- Emergency Medicine
- Internal Medicine subspecialty: Cardiology, Pulmonary Medicine, Gastroenterology, Nephrology
- Neurology/Neurosurgery
- Otolaryngology
- Orthopedics
- Urology, adult or pediatric

### **Surgery**

- Emergency Medicine
- Internal Medicine subspecialties: cardiology, EKG, pulmonary medicine,
- Internal Medicine subspecialties: gastroenterology, nephrology, oncology, infectious diseases, endocrinology
- Pathology
- Anesthesia
- Radiation Oncology

### **Urology**

- AIDS and STDs, Infectious Diseases
- GU radiology
- Internal Medicine subspecialties: cardiology, EKG, pulmonary medicine, nephrology, oncology
- Urogynecology (OB)

### **OBGYN/Women's Health**

- Adolescent medicine
- AIDS and STDs
- Emergency Medicine
- Internal Medicine subspecialties: cardiology, EKG, pulmonary medicine, oncology
- Urology
- Surgical critical care
