DOWNSTATE RESILIENCY AWARDS

ABOUT THE AWARDS

Celebrating the People Who #KeepCareClose

SUNY Downstate Health Sciences University (Downstate) proudly celebrates faculty and staff excellence, dedication, and achievement. We are honored to recognize the individuals and teams whose extraordinary commitment continues to advance Downstate's mission and strengthen our community.

This year, we applaud **608 colleagues** representing **12,272 collective years of service** between 2024 and 2025. That adds up to **23,930,400 hours**, which shows the true weight of their dedication. In healthcare, that is enough time to run an emergency department nonstop for more than **2,700 years**, perform over **9,000,000 surgeries**, or deliver **4,000,000 babies**. In business terms, it's the equivalent of staffing more than **11,000 full-time careers**, all focused on keeping care close for our communities.

Our honorees have invested those years and hours into saving lives, teaching future physicians, conducting groundbreaking research, and ensuring Downstate remains a trusted center for health equity and excellence. Their service reflects deep pride in their work and an enduring commitment to our mission.

In addition to our Service Award recipients, this year, we proudly honor the exceptional individuals receiving the **Chancellor's Award for Excellence in Classified Service** and the **Chancellor's Award for Excellence in Professional Service**. The Chancellor's Awards are system-level distinctions highlighting those whose outstanding contributions embody SUNY's enduring commitment to knowledge, instructional quality, and the public good.

Today, we do not merely count years or hours. We honor lives transformed, students mentored, and communities strengthened. Our honorees are the heartbeat of Downstate, the people who turn dedication into impact and **#KeepCareClose** where it is needed most. Your service is both our legacy and our future, the foundation of who we are and the promise of who we will become. Thank you for your excellence, pride in our institution, and steadfast commitment to our mission.

We are proud to present this year's SUNY Downstate Resiliency Awards, recognizing Downstate faculty, staff, and students who demonstrate exceptional leadership, advocacy, innovation, and teamwork contributing to Downstate's mission's overall success and spirit, vision, values, and strategic goals.

Awards will be given in the **Advocate, Innovator, Leader, and Synergist** categories.

The **Advocate Award** focuses on positive, customer-centered outcomes and may be awarded to Downstate students and/or staff.

The **Innovator Award** focuses on developing or enhancing an existing work process or product to create efficiencies or improve effectiveness and/or quality. It may be awarded to Downstate students and/or staff.

The **Leader Award** focuses on contribution to the SUNY Downstate mission, values, and/or Strategic Plan by leading or directing a successful group or project. It may be awarded to Downstate students and/or staff.

The **Synergist Award** focuses on SUNY Downstate team(s) who have worked together, within or across departments, to accomplish goals serving the greater good through the spirit of Downstate's mission, values, or strategic objectives. It may be awarded to a team of Downstate students, staff, or a team combining both.

CLOSING REMARKS

Dr. Wayne J. Riley

CHANCELLOR'S AWARD FOR EXCELLENCE IN THE CLASSIFIED SERVICE

The **Chancellor's Awards for Excellence in the Classified Service** are System-level awards established by the University to give System-wide recognition for superior performance and extraordinary achievement by employees in the Classified Service. These awards demonstrate the University's commitment to individuals who provide superior service to its students and the community. Employees selected for this award receive a personal certificate of recognition and a Chancellor's Excellence Medallion.

2023-2024

Zakiyyah Dupass

Nursing Station Clerk 1

Described as dedicated, passionate and willing to go above and beyond for the betterment of the team, Ms. Zakiyyah Dupass has served the Downstate community for over a decade. She is known for greeting patients and families with compassion and a smile. Ms. Dupass never hesitates to assist her colleagues in the Transplant Department and works diligently to meet the needs of our patients. Her enthusiasm is motivating, and her unwavering devotion to Downstate exemplifies her strong moral fiber and character. She is an inspiration, worthy of recognition.

Adrian McRae

Nursing Assistant 2

As a Rehab Nurse's Aide for over 20 years, Adrian McRae is a valuable asset to the Acute Rehabilitation Unit. In this role, he works tirelessly to deliver superior care to patients. He helps them recover and regain their independence by maximizing their time on the unit and preparing for a safe discharge home. Mr. McRae regularly advocates for his patients and often brings pressing issues to the attention of the medical team. He is

loved by his patients and their families alike, as he has a reputation for providing strong emotional support during their period of difficulty. His dedication does not go unnoticed. He is worthy of recognition.

Charlene Murray

Cleaner

After joining Downstate in 2020 at the height of the pandemic, Charlene Murray quickly became a standout employee in Environmental Services. She is an exceptional worker who goes above and beyond her duties. Patients and staff express pleasure to others with the hard work and dedication that she puts into her craft. Described as respectful and pleasant, Ms. Murray is always willing to assist with a smile, often taking the initiative to resolve issues on the floor and help staff in ensuring smooth operations on the Transplant Unit. She is truly a gem, worthy of recognition.

2024–2025

Kershel Albert

Registered Nurse I (T&RC)

Employed as a Registered Nurse at SUNY Downstate since 2016, Kershel Albert is hardworking, dedicated, organized and focused. She is continuously learning and developing the skills to effectively and efficiently manage her patients. Ms. Albert brings positive energy to the workplace. She is a joy to work with and genuinely cares about delivering exceptional quality care, often giving support to her fellow nurses. Ms. Albert easily develops and fosters good relations with her patients, empowering them by ensuring that they understand their treatment plan and participate in their own recovery. She is a consummate professional, worthy of recognition.

James Beazer

Plant Utilities Engineer 2

A veteran of the US Air Force, James Beazer served at Downstate for 7 years before his retirement in July 2025. A true asset to FM&D and the Campus at-large, he set an outstanding example in maintaining and operating our facilities. He was detail-oriented and strove to ensure quality service. During his time at our institution, Mr. Beazer was adaptable and adjusted his style to accommodate a diverse customer base. His colleagues respected and valued his knowledge of the facility and sense of comradery, regularly turning to him for advice. Mr. Beazer was a dedicated leader, steady fellow of good character and the embodiment of excellence. He is worthy of recognition.

Robert Turner

Security Services Assistant 1

For over 33 years, Robert Turner has consistently demonstrated exceptional performance of his duties, providing outstanding service to Downstate with a profound sense of professionalism and respect. He ensures the safety of staff, patients and visitors, while using his discernment to enforce laws, rules and regulations in an appropriate manner. Although he commutes to and from New Jersey every day, he not only reports to work daily and punctually, but often volunteers for overtime and regularly works 16-hour days. Mr. Turner's unwavering commitment to excellence in service and exemplary record of service is a testament to his dedication to our institution. He is a professional worthy of recognition.

CHANCELLOR'S AWARD FOR EXCELLENCE IN PROFESSIONAL SERVICE

The **Chancellor's Award for Excellence in Professional Service**

recognizes consistently superior professional achievement within and beyond the position. Nominees must be individuals who have repeatedly sought improvement of themselves, their campuses, and ultimately the State University and, in doing so, have transcended the typical definitions of excellence. At all position levels, nominees shall be those individuals who can serve as professional role models for a University system in the pursuit of excellence.

2024

Kino Williams, PsyD

Dr. Kino Williams began his career at Downstate over 20 years ago, holding several high administrative positions. Most recently, he was the Residency Program Director for the Department of Radiology/Radiation Oncology. He recently assumed the role of Administrator of the Department of Psychiatry and Behavioral Science.

During his years at Downstate, he has been recognized for his dedication, professionalism, problem-solving skills, and positive attitude. Dr. Williams' service to the Downstate community has extended well beyond his formal responsibilities. He has devoted himself to many center-wide efforts, such as the annual Health Fair, which he led in 2022 and 2023.

Dr. Williams also devoted time to his own education. Beginning with an Associate's degree in Applied Science and Business Administration, he received a Bachelor's in Business Administration and Human Resources, and a Master of Science in Business Economics degree. Recently, he earned a Doctor of Psychology degree in Human and Organizational

Psychology. His exemplary service record to Downstate and the community, his commitment to excellence, and outstanding work have characterized Dr. William's efforts at Downstate over many years.

We are honored to present the 2024 Chancellor's Award for Excellence in Professional Service to Dr. Kino Williams.

2025

Tina Adjei-Bosompem, MPH

Tina Adjei-Bosompem, MPH, began her career at Downstate seven years ago. She is the Assistant Director of Evaluation, Outcomes Assessment, and Accreditation Services in the Office of Academic Affairs. Ms. Adjei-Bosompem served essential roles in the self-study process for re-accreditation by the Middle States Commission on Higher Education (MSCHE). As a result of her professional and technical proficiencies, she assumed the lead in developing the Downstate Middle States Website page and the SharePoint site. The latter was used to organize and store vast amounts of evidence information required by MSCHE. She also helped develop, distribute, and analyze complex data sets and present them in highly readable charts and graphs, greatly enhancing our self-study document.

Ms. Adjei-Bosompem brings excellent educational and experiential credentials to her work. She has an exemplary record of service to Downstate and the community. She has honored this institution with her commitment to excellence and outstanding work ethic. Ms. Adjei-Bosompem is a highly motivated, dedicated professional who is always willing to help students, staff, and faculty. She is very personable, works exceptionally well with others, and is greatly valued by all those with whom she is in contact.

We are honored to present the 2025 Chancellor's Award for Excellence in Professional Service to Tina Adjei-Bosompem.

SUNY DOWNSTATE RESILIENCY AWARDS

ADVOCATE AWARD

The **Advocate Award** focuses on positive, customer-centered outcomes and may be awarded to Downstate students and/or staff.

Jennifer Brown

Jennifer Brown is the Director of Operations at the Center for Healthcare Simulation. The Center for Healthcare Simulation provides immersive, simulation-based educational programs for students, clinical trainees, and faculty throughout Downstate.

Jennifer receives the Advocate Award for her efforts to continue education for students from the College of Medicine from October 2023 to the present under difficult circumstances. Taking on the responsibilities of a colleague who fell ill, Jennifer has advocated for the continuation of the evaluation and simulation of over 200 students annually. To accomplish this, she had to learn many new skills in a short period of time.

Coordinating the schedules of all students, faculty, staff and contractors requires good communication skills. It also took great ingenuity, empathy, patience, and creativity to fashion the programs and recruit all actors to participate in the assessments created. It took mental resilience, focused action, flexibility to develop solutions, and determination to complete the tasks.

Maria Jimenez

Maria Jimenez is a Care Coordinator for the STAR Program. She receives the Advocate Award for exemplifying exceptional interpersonal skills and empathy in her interactions with patients, approaching each individual with a desire to understand their concerns and needs, and creating a comforting environment where they feel valued and heard. Maria's ability to communicate clearly and compassionately helps alleviate anxiety and build trust, ensuring patients feel supported throughout their healthcare

journey. Her dedication to patient care extends beyond routine tasks, as she often goes the extra mile to ensure patients leave feeling empowered and informed about their health and treatment plans. Maria's warm demeanor and attentive nature make her a trusted ally in the healthcare team, setting a positive tone for patient experiences.

Maria's impact extends to her relationships with her co-workers. She is highly collaborative and always willing to lend a helping hand or share her expertise. Her positive attitude and approachable demeanor create a supportive atmosphere where colleagues feel comfortable seeking advice or assistance. Maria's teamwork skills are evident in her ability to seamlessly integrate with diverse teams, contributing her clinical knowledge and insights into patient care and process improvement. Her respect for others' contributions and willingness to celebrate team successes make her a valued member of our healthcare community. Maria's dedication to patient-centered care and her collaborative spirit make her an exemplary colleague whom others look up to and enjoy working alongside.

INNOVATOR AWARD

The **Innovator Award** focuses on developing or enhancing an existing work process or product to create efficiencies or improve effectiveness and/or quality. It may be awarded to Downstate students and/or staff.

Mary Mallappallil, MD, FASN, FACP

Dr. Mary Mallappallil is an associate professor of clinical medicine, the chief of service for nephrology at Kings County Hospital, and the director of CME for the nephrology division at Downstate. Her areas of expertise are chronic kidney disease, glomerulonephritis, and dialysis. Dr. Mallappallil is the medical director at the Kings County Hospital dialysis center and chief of nephrology.

Dr. Mallappallil receives the Innovator Award for improving continuing medical education, which keeps practicing nephrologists up-to-date with information in the Brooklyn area.

James Hayes

James Hayes is the Associate Director for the Office of Financial Aid at Downstate, where he has worked for over 20 years.

In 2024, the federal financial aid form (FAFSA) was launched much later than expected, leaving all universities in a frenzy. The FAFSA affects a university's ability to offer financial aid packages to incoming students. This inability can also cause a school not to reach its full enrollment potential.

During this frenzy, James, who is receiving the Innovator Award, was steadfast in solving how Downstate could get the FAFSA to campus by engaging the IT Department daily, reading through all the Federal and SUNY updates, and attending countless seminars and roundtables to address the issue. To start the process in earnest, Mr. Hayes also manually processed some of the files to identify errors and find solutions.

As a result of his tireless efforts, Downstate produced award letters ahead of most of our SUNY colleagues. He took on this task head-on, making the matriculation of incoming and continuing students to Downstate seamless.

LEADER AWARD

The **Leader Award** focuses on contribution to the SUNY Downstate mission, values, and/or Strategic Plan by leading or directing a successful group or project. It may be awarded to Downstate students and/or staff.

Robert Foronjy, MD, PhD

Dr. Robert Foronjy is an Associate Professor in the Department of Medicine and Chief of the Pulmonary and Critical Care Division.

After graduating from Temple Medical School in 1995, Dr. Foronjy completed his internal medicine residency and pulmonary and critical care fellowship training at Columbia University Medical Center. In 2001, he joined the faculty at Columbia and began his career in basic and translational science. This research focused on better understanding the pathogenesis of chronic obstructive pulmonary disease (COPD). His work on redox biology of the lung was awarded an NIH grant, and, in 2011, he became the Director of Lung Research at St. Luke's Roosevelt Medical Center.

In 2015, Dr. Foronjy, receiving the Leader Award, accepted the position as Chief of Pulmonary and Critical Care Medicine at Downstate. Here, his research group continues to work to identify the basic mechanisms of lung injury in COPD and other pulmonary diseases to develop better future treatments for patients. In addition, the research group is dedicated to training young faculty, fellows, residents, medical, and doctoral students in translational lung science.

Srikanth Adidam Venkata, MD

Dr. Adidam Venkata, who will receive the Leader Award, served as the Chief of Neurology in the Department of Neurology at Brookdale Hospital. He is currently a Fellow in Neurocritical Care at the Mayo Clinic in Florida.

Since Sri, as he is affectionately known, was one of the first classes of this neurology program at Brookdale, he helped create and document clinical practice protocols, assembled educational curriculum, and curated outside speakers for the "Lecture at noon" Conference.

Even before he took the role of chief, he started work as a one; he researched other neurology programs' handbooks and assembled one for this program. Sri hosted weekly resident meetings to discuss issues, difficulties, wellness, and suggestions for improvement.

Sri works closely with chiefs in other programs to collaborate and advocate for better patient care. Every medical resident prefers him and is comfortable approaching him for help with neurological questions in practice.

SYNERGIST AWARD

The **Synergist** Award focuses on SUNY Downstate team(s) who have worked together, within or across departments, to accomplish goals serving the greater good through the spirit of Downstate's mission, values, or strategic goals. It may be awarded to a team of Downstate students, staff, or a team combining both.

University Hospital at Downstate Care Management Team

This year's **Resiliency Award** winner for staff **Synergy** is The University Hospital at Downstate Care Management Team, which includes an amalgamation of Social Work and Case Management.

At the heart of the hospital's mission, the Care Management team's work is invaluable to patients and the broader community. The team expertly manages complex patient discharges, creating culturally sensitive plans in collaboration with every hospital department, community partner, and patient's family. They are known for their resilience and dedication, often working extra hours to ensure a safe transition for patients. Strong patient advocates are the vital link between the clinical team and the patient, providing additional support when needed. Their commitment to compassion, equality, and accountability ensures they are regarded highly by colleagues and patients.

Downstate's School of Health Professions Chapter of the Coalition of Occupational Therapy Advocates for Diversity (COTAD)

This year's **Resiliency Award** winner for student **Synergy** is The School of Health Profession's Chapter of the Coalition of Occupational Therapy Advocates for Diversity.

The Coalition of Occupational Therapy Advocates for Diversity (COTAD) was formed in 2014 through a collaboration between members of the AOTA Emerging Leaders Development Program. COTAD has grown tremendously since its early days and has added individuals to its Executive Board and general membership.

Now established as a non-profit organization, COTAD operates as a group of individuals from across the United States, all working towards promoting diversity and inclusion within the occupational therapy workforce and increasing occupational therapy practitioners' ability to serve an increasingly diverse population.

Downstate's COTAD chapter is an active student organization focused on bridging the values of advocacy and professionalism through increasing awareness of the importance of culture and diversity within the occupational therapy profession. The chapter is proudly student-developed, student-led, student-implemented, and student-driven, with a strong component of teamwork, leadership, and fostering professional values as its foundational structure.
