

# SCHOOL OF HEALTH PROFESSIONS HEALTH INFORMATICS PROGRAM

## ADVANCES IN AI IN HEALTHCARE AND HEALTH INFORMATICS

### VIRTUAL WEBINAR

Join our panel discussion on AI in Healthcare to learn about its potential to revolutionize medicine. Our experts will discuss its development, machine learning's role in clinical decision-making, and the relationship between cognition and AI. Don't miss this opportunity to explore the latest advancements and emerging challenges in the field.

#### MODERATOR

**Adiebonye E. Jumbo, Ph.D., ITIL**  
Assistant Professor  
Health Informatics Program  
SUNY Downstate Health Sciences University

### GUEST SPEAKERS

**Edward H. Shortliffe, MD, PhD, MACP, FACMI, FAIMBE, FIAHSI**

Chair Emeritus & Adjunct Professor of Biomedical Informatics, Vagelos College of Physicians and Surgeons, Columbia University; Adjunct Professor: Biomedical Informatics, College of Health Solutions, Arizona State University; Department of Population Health Sciences, Weill Cornell Medical College

Talk: Evolution of AI and current status

**Trevor Cohen, MBChB, PhD, FACMI**  
Professor, Biomedical Informatics and Medical Education, Adjunct Professor, Department of Psychiatry, University of Washington, Seattle, WA

Talk: AI research and machine learning

**Anthony C. Chang, MD, MBA, MPH, MS**  
Children's Hospital of Orange County Sharon Disney Lund Medical Intelligence and Innovation Institute, Orange, California, United States of America; Pediatric cardiology, Artificial Intelligence and data science in healthcare

Talk: Clinician's perspective on the role of AI now and in the future

**David R. Kaufman, Ph.D., FACMI**  
Clinical Associate Professor  
Health Informatics Program  
SUNY Downstate Health Sciences University

Talk: Cognition and AI

**THURSDAY, APRIL 27TH, 6:00-7:30 PM EST**
