

# LEAN SIX SIGMA GREEN BELT POSTER FAIR

## Join Us and Celebrate Our Green Belts!

Over the past year this group of dedicated leaders have worked to address a few of our hospital's opportunities for improvement and during this great event will share their journey and results with the organization through an interactive project poster session.

Come out and join us as we learn about process improvement projects completed by Downstate's first cohort of Lean Six Sigma Green Belts!

For more information about the event contact Tyshawn Toney, Director of Systems Engineering [tyshawn.toney@downstate.edu](mailto:tyshawn.toney@downstate.edu)
