Dear Hospital Heroes,

Thank you for everything. You have kept our friends and family members alive. You have taught me that not all superheroes wear capes, some wear scrubs. You have sacrificed so much to protect us and our community and I would like to thank you for that, for everything you have done. Remember there is a light at the end of the tunnel.

Sincerely,

Jeremy Ryan Tse

Dear Hospital Heroes,

Thank you for your hard work in the hospital. You have a smart brain and you are brave. Other people stay inside of their homes to stay safe and protect themselves, but you go to work every day to make things better. No one needs superpowers or a cape to be a hero, you are one of the many heroes in this world. Stay positive, work hard, and make things great happen. Everyone appreciates the hard work and we wish for everyone to stay safe, and healthy in this pandemic.

Tough times don't last, tough people, do. Although life may not be easy now, life will get better in time. You have to fight through bad days to earn the best days in your life. A negative mind will never give you a positive life. Thank you for being our hospital heroes.

Sincerely,
Mya

Dear Hospital Heroes,

You guys are Hospital Heroes because you were working through a rough time specially through the pandemic and saving people's lives . Here are some jokes to make you laugh or smile. Why did the nurse need a red pen at work.....in case she needed to draw blood. Why did the M&M go to school.....it wanted to be a smartie. One more joke: why was 6 afraid of 9 on new years eve....because .9.8.7. Thanks for working for us to save our lives. You are an inspiration to me for doing such hard work .

Dear Hospital Heroes,

I am grateful that you are still working in the hospital when the virus is still out there. People want to stay inside but you go to work and help stop the virus. Superheroes learn to fly but you soar. I am so happy that you have made a vaccine. Thank you for working in dangerous times.

I appreciate everything you do for us! You helped us and worked non-stop during this hard time. I know that without you many people would not be able to get better. I know you are tired of working so much because it has been a year since my school closed and since I have been learning remotely. I want to thank you and I want you to know that we are thankful for everything you did.

You are forever going to be our heroes!

Dear Hospital Heroes,

Thanks for all you have done for us. You are like heroes but with no capes. You saved lives for us. You helped people in need. What could we do if you were not around? Where would we go when we're sick? Where would we go if we had a broken arm? Who would save us? I don't know what would happen if people like you weren't around. You deserve our respect. You deserve our love.

Dear Hospital Heroes,

First, I would like to say thank you for all your hard work. It cannot be easy to do what you do. Taking care of other people who are sick while your families are at home is probably scary to you. I hope you know that we appreciate everything you are doing to help everyone fight back against Covid. You guys are the real heroes today and never forget that! Thank you again! I hope you all are staying safe and get to be with your families soon!

Dear Hospital Heroes,

Thank you so much for all you have done. You know who Spiderman, Batman, Superman, and Hulk are. Well those are average superheroes for me the #1 superhero are you guys. 2 of the super heroes I listed wear capes 2 of them do not, because not all superheroes need capes. If you want to be a superhero you have to be trustworthy, and super kind.... Like you guys! You guys leave your family everyday just so you can help other people. Because of you, everybody is feeling better. I bet you were getting ready to go to work. Well, that is generous of you. Whenever I go to the doctors I never get to thank any of you. You guys are real superheroes, Thank you!

Dear Hospital Heroes,

Thank you for helping save people from the coronavirus. You doctors put your lives at risk every day just to help end this and save lives. I am 10 years old, and in January I, actually tested positive for covid-19 but I recovered at home after 15 days and had to stay inside that whole time. I had to quarantine away from my friends and i also didn't do school until 8 days went by. Having the virus wasn't fun and I just wanted to thank you first responders for helping people get through this and possibly saving more lives.

Dear Hospital Heroes,

Thank you for all the good work and risking your life to make people safe. For example, you are giving patients treatment even if it can get you sick. Another example is that you have to work every day and take care of us and make sure we are healthy. A third example is that you always help people whenever they need helping. Thank you for making sure we are healthy at all times.

Dear Hospital Heroes,

Hello! I've heard a lot about you. The pandemic and everything, our heroes and how they are risking their lives just for people like me. Heroes don't have to wear capes, if you're wondering what hero I'm talking about..... I'm talking about you! I admire Nurses/doctors. How wonderful. Kind and sweet they are. It's awesome how all of you were taking care of people, doing the BEST you could to keep people alive and well during the pandemic.

But, I've heard all of you have been stressed. I have jokes! (Bad ones) to make you laugh! What did the detective banana say to its other? Let's split! What would happen if seagulls flew over the bay? They'd become bay-gulls!(Bagels). Well, hopefully you laughed. And..remember, heroes don't have to wear capes.

Sincerely,
Shayla Smith.
