DOWNSTATE HEALTH
OBSTETRICS & GYNECOLOGY

Obstetrics and
Gynecology

Our Department of Obstetrics and Gynecology at Downstate Health offers a complete range of women's health care services.

OBGYN offers a complete range of women's health care services including comprehensive reproductive access of medical and surgical terminations through its Maternal Fetal Medicine, Obstetrics, Reproductive Endocrinology & Infertility, Urogynecology and Reconstructive Pelvic Surgery, and Gynecologic Oncology divisions.

OBGYN is designated as the New York State Department of Health Regional Perinatal Center.

Maternal Fetal Medicine

University Hospital at Downstate interventional radiologists perform a wide variety of procedures including but not limited to:

- High Risk Prenatal Care
- Genetic Testing, Screening and Counseling
- Percutaneous Umbilical Cord Sampling
- Level II Ultrasound & Doppler Flow Studies
- Prenatal Consultations
- Hysterosonograms

Urogynecology and Reconstructive Pelvic Surgery

The Urogynecology Division provides a full range of medical and surgical gynecology procedures for patients with a focus on pelvic pain, urogynecology and pelvic floor health.

Gynecologic Oncology

The Division of Gynecologic Oncology provides a complete range of diagnostic and therapeutic expertise for all aspects of cancers of the female reproductive system.

Reproductive Endocrinology and Infertility

The Reproductive Endocrinology and Infertility Division provides services in the following areas:

- Micro-Surgical Tubal Reconstruction
- Endoscopic Procedures
- Assisted Reproductive Technology
- Endocrine Disorders
- Infertility

Midwifery Services

Natural birthing suite experience with doula support.

Lactation Support

Breastfeeding support by IBCLC available postpartum, after discharge in the hospital and in the community.
