TriNetX Research Network: Dataset Request Process

User creates query / cohort of interest

→

Recommended: Utilize Summary Statistics and Query Design Assistance

→

User selects the "Request Dataset" button from the Query History Panel for desired cohorts

→

User must request dataset with following info in "User Message": PI Name/Email & Description of research

↓

TriNetX will generate and send dataset to Principal Investigator

←

TriNetX signs and returns fully executed Data Set Order Form to HCO

←

HCO returns signed Data Set Order Form to TriNetX

←

TriNetX receives request and sends Data Set Order Form to Contracts Office

TriNetX
